

MEASUREMENTS

1 Challenge one

Find 5 objects in your house. Order them from tallest to smallest.  
Draw a picture of them in order here. Label them with their height in centimetres.

2 Challenge two

List or draw 5 things that are heavier than a football.

MEASUREMENTS

List or draw 5 things that are lighter than a book.

3 Challenge three

Make your own scales. Ask an adult to supervise.

- 1 Poke 2 holes either side of your plastic pots.
- 2 Make a 'handle' by tying a piece of string to each pot.
- 3 Hang one pot on either side of the coat hanger.
- 4 Find someone to hold their finger out and place the hanger on it. You could also find a hook.
- 5 Place objects in opposite pots to see which is heavier.
- 6 Can you make your scales balance?

You will need:

- A coat hanger
- 2 pieces of string of equal length
- 2 containers that are the same  
e.g. yoghurt/soup/fruit pots

MEASUREMENTS

4

Challenge four

Circle the item with the largest capacity? This means they could hold the most liquid.
