

MAKE YOUR OWN PIGGY BANK

A perfect activity to help your child understand money and practice their addition skills.

LET'S GET STARTED!

1. Decorate your piggy bank
2. Carefully cut around the outside of your piggy bank template and fold along each of the dotted lines
3. Decide how much you want to save and write your total on the side
4. Glue each of the tabs (marked with an x) and stick in place
5. Keep a total of all the money you pop inside, so you know when you've reached your target
